### **PROFESSIONAL SUMMARY**

Entrepreneurial software engineer and founder with experience in SCADA systems, AI automation, and global precious-metals branding. Skilled in Python, Azure, and data analytics, with a strong interest in gold and silver markets.

### **RELEVANT WORK EXPERIENCE**

#### **Founder & Brand Director – Wall Street Silver**

(Remote)

January 2021 – Present

- Founded and scaled one of the world's largest online precious metals communities centered on silver, gold, and market transparency.
- Built and managed a community of 270,000+ members across Reddit, YouTube, and X, fostering global discussion on silver and gold investing.
- Secured the U.S. trademark "Wall Street Silver" (Reg. No. 97928673) and oversaw legal and brand protection across platforms.
- Collaborated with bullion dealers, mining firms, and financial media outlets to promote physical precious metals ownership.
- Led digital marketing, partnerships, and analytics strategy, increasing engagement by 150% year-over-year.
- Directed the design and content of the WallStreetSilver.com website, coordinating SEO and growth initiatives.

#### **Associate Software Engineer (RTS Gas SCADA) – Eversource Energy**

Berlin, CT

November 2022 – Present

- Collaborated with Microsoft & OpenAI to develop a NERC compliance AI chatbot using Python, C#, and Azure to automate compliance workflows.
- Built real-time SCADA health dashboards (Aveva OASys / Wonderware) using Flask, JavaScript, and C#, improving operational visibility.
- Automated user audits and PowerShell patching processes, reducing manual workload by 70%.
- Managed SCADA workstation builds, patching, and backups, ensuring system reliability and security.

#### **Auditor – Resolute Management**

Boston, MA

October 2019 – May 2022

- Conducted internal audits ensuring adherence to company controls and financial accuracy.
- Authored detailed audit reports and collaborated with teams to implement compliance improvements.
